

Elliott Kobby Awayiga

User Experience Designer

About Me

A self-motivated, proactive person and self-taught user experience designer who takes pride in designing user-driven solutions and with experience in product designing, wire-framing, prototyping, usability testing, research and data gathering, digital marketing, customer service and support role. Proven to work well as part of a team as well as on individual assignments. Looking forward to an organization of high reputation where I can utilize my knowledge to innovate new products and design human-centered experience and learning more while working with your organization.

Work Experience

Bettybingo Mobile App (Self-initiated Projects)

May, 2020 - June, 2020

Duties performed include:

- Assisted in planning, design and facilitation of user research
- Analyzed user feedback and provided data to support strategic design and user-experience decisions related to core, and new functions and features by ensuring that the end product meet their needs
- Sketched out visual concepts on both software and paper
- Created personas, prototypes and user journeys to illustrate the user-flow or task-flows.
- Rapidly tested and iterated designs and collaborated with other team members and stakeholders by asking insightful questions, taking calculated risks and championed new ideas

Bettybingo Mobile App (Self-initiated Projects)

March, 2020 - April 2020

Duties performed include:

- Transformed business ideas and opportunities into tangible, usable digital products for users through research.
- Analyzed user feedback and provided data to support strategic design and user-experience decisions related to core, and new functions and features by ensuring that the end product meet their needs
- Sketched out visual concepts on both software and paper
- Managed the end to end user experience process throughout the designing of the product.
